“ I've worked with Nina on hundreds of creative projects over the past ten years, from complete advertising campaigns to photo shoots from Florida to Hawaii. She's smart, decisive, and unflappable ~ an out-of-the-box thinker and an inspiration for great creative. In short, Nina Leonetti is pure joy to work with. ”

**CHALLENGE:** Nina approached me as referral in search of resume help. She had been recently laid off and had leveraged her significant experience to launch her own consulting firm. She wanted more clients, and hoped a resume would help her to market herself.

Because Nina had never had a resume, she initially sent me a Word document with only these 12 words on it:

I Think Hospitality

I Market Customer Experiences

I Know Major Hospitality Brands

This represented her attempt at branding herself.

**ACTION:** I loved Nina's initial branding efforts and used an interview process and questionnaire to source her work history, education, and achievements. Nina also sent me a PowerPoint of photos she had orchestrated in her work, along with a link to her near-empty website. I used the colors, style, and clean look of her web presence as my starting point in crafting a compelling resume layout worthy of Nina's abundant creativity. I inserted photos from her PowerPoint to showcase her style, along with a quote about her from an industry peer.

**RESULTS:** Nina loved her new consulting resume and began using it to gain clients outside her network of contacts. Her business has grown in the months since she approached me, and she has been able to sustain self-employment rather than seek another full-time job.
