Résumé Strategy

This client was a hard-working single mother who held 2 simultaneous F&B service jobs and dreamed about becoming a full-time makeup artist.

After winning an essay contest, she was awarded a full scholarship to attend college and earn an Associate Degree in Cosmetology. Like the scholarship judges who were moved by her passion for the craft, I was profoundly inspired by her perseverance and dedication to grow as a makeup artist despite having such a full schedule.

Not only was she raising young twins, holding 2 jobs, and going to school full time, she was also volunteering at a women's shelter to help abused women hide their bruises and feel beautiful.

For these reasons and more, I wanted to give this client an absolutely magical résumé that spoke to her passion for makeup artistry in every section.

I wanted each visual element to be as clever and memorable as possible. I highlighted her web portfolio with a blush graphic and displayed photographs of her freelance projects to clearly demonstrate the perfection of her work.

It was also important to show her personality and commitment, which I emphasized in the summary opening and client testimonial. I wanted to prove how she made her clients feel beautiful while making sure they enjoyed every minute in her chair.
