MISSION: DELIVER HIGH-QUALITY PERFORMANCE IN 358CI ENGINES

## Performance Engineering Pedigree Coupled with a Storied Past

### Engine Build & Aftermarket Projects

- ☑ **ATK HP38C** - Chevy 350 Blower Complete Engine 500HP, Build-Out
- ☑ **ATK LQ9-LB-1** - Chevy 365ci/6.0L Base Engine 550HP, Components Fine-Tuning
- ☑ **ATK LM7-LB-3** - Chevy LM7/LS1 383ci Base Engine 515HP+, Complete Build-Out
- ☑ **ATK HP94C** - Chevy 383 Stroker 415HP, Aftermarket Components

### Youth Racing

-  **Kid Kart, 60cc, 2-stroke,** Mini-Grand Prix, 2009
-  **'Pit-Crew Boss',** People-Powered Go-Kart Build-Out, Winter 2010
-  **Mini-Swift, 60cc, 2-stroke** Mini-Grand Prix, 2010
-  **Jr. League, 125cc, 2-stroke** Mini-Grand Prix, 2013
-  **Sr. Class, 125cc, 4-cycle** class World Formula, 2017

Primed by a passion for **engine building and aftermarket components installation**, backed by a newly minted **degree in automotive and high-performance technology** and a heritage of involvement in motorsports.

## Value to Your Racing Team

*Engine Diagnosis, Repair, and Performance* ▪ *Aftermarket Component Installation* ▪ *Increase of Horsepower and Torque* ▪ *Powertrain Modifications* ▪ *Performance-Exhaust Systems* ▪ *Custom Air Intakes* ▪ *Performance Suspension Tuning* ▪ *Computerized Engine Control Systems* ▪ *High-Performance Suspension & Steering Drive Lines* ▪ *Accessory Trends* ▪ *Engine Machining* ▪ *Fuel/Electronics / Ignition Systems* ▪ *Custom Builds, Welding, and Fabrication*

- ✓ Serve as a pillar of support to other mechanics, ensuring technical problems are eradicated, car is fit for the event, and optimized to stay at the front of the grid.
- ✓ Talent for analyzing vital engine performance information and relaying data to help maximize car's race-day performance.
- ✓ Calm in the storm during pressure-filled, intense situations where quick thinking is needed to make informed, accurate decisions.

## Career & Learning Track

**BetterTeam Automotive | Brighton, MI** 2018 - Present  
**AUTOMOTIVE SERVICE TECHNICIAN / PART-TIME**

Identify automotive issues using diagnostic equipment, explain issues to customers, and perform maintenance and repairs.

**Advanced Auto Parts | Brighton, MI** 2015 - 2017  
**PARTS ASSOCIATE / PART-TIME**

Assisted customers with automotive product needs, including selection of appropriate replacement parts and installation of batteries while providing friendly customer service and maintaining a safe work environment.

**Brighton Kart Racing League | Brighton, MI** 2009 - 2017  
**VEHICLE DYNAMICIST**

Gained solid understanding of how vehicle subsystems and modules behave in motion—taking into consideration driver inputs, vehicle response, speed, and stability.

**Associate Degree in Applied Science – Automotive & High-Performance Technology**  
University of Northwestern Ohio – Lima, OH

GIVING ENGINES THE EDGE  
NEEDED TO PERFORM & WIN

**NEW GRAD DETAILS:**

Denny was seeking what he felt was a “once in a lifetime” opportunity for an internship with a high-performance automotive engineering team that helps private vehicle owners and race teams with component product development, aftermarket performance improvements, and race-day support for 358ci engines.

Our goal was to highlight his passion for motorsports, experience with Chevy engine build-outs, and aftermarket projects—and overall interest in engine performance and stability.

We matched color enhancements with the company’s website and added the racing stripe to give the document a little more ‘noticeability’. Denny graduated from UNOH in the spring, secured an interview with his targeted employer, and started his internship in June (2019).
